## ABOUT ME

I am a motivated and responsible individual with strong problem solving and analytical skills. I have experience working on university projects where I managed tasks, coordinated with team members, and met deadlines. I am comfortable using technology and tools to organize work, analyze information, and present results clearly.

I also have exposure to business related tasks such as research, communication, and supporting project goals. I learn quickly, adapt easily to new environments, and communicate well with others. I am eager to gain practical experience, improve my skills, and contribute positively to any team or organization.

## SOFT SKILLS

- Analytical Thinking
- Problem Solving
- Creativity
- Time Management
- Adaptability
- Teamwork
- Leadership

## TECH SKILLS

- Python programming
- Data Cleaning and Wrangling
- Data Analysis
- Using NumPy, Pandas, Matplotlib, Seaborn
- Machine Learning Basics
- HTML and CSS
- JavaScript and React
- UI/UX Design
- Adobe Illustrator and Figma
- Canva Design

## LANGUAGE

- English
- Urdu

## QUALIFICATION

**Bachelor In Computer Science** (2021--2025)  
University Of Mianwali

**Intermediate (ICS)** (2018--2020)  
Superior College Mianwali

**Matric (Science Subjects)** (2015--2017)  
Crescent Model High School

**Front-end Development, Internship** 4 Month (Continue...)

- I worked with HTML and CSS to create clear layouts, simple forms, and responsive sections.
- I used JavaScript to handle events, write clean functions, and solve small logic problems.
- I built React components, used props and state in real tasks, and improved UI parts with simple updates.

**Data Processing and Analysis Work** 6 Months

- I prepared and cleaned different datasets, used Python libraries like NumPy, Pandas, Seaborn, Matplotlib, and a few others to fix issues and organize the data for proper use.
- I explored the data, found useful patterns, and turned the results into clear insights that supported the analysis.

**Graphic Designer** 8 Months

- I designed projects with Canva, Adobe Illustrator, and Figma, and I also created clear UI and UX layouts for different needs.
- I completed professional work, including posters, cards, banners, CVs, and other visual designs with a polished and consistent style.
